

## **NOTICE OF ASSESSMENT PERCENTAGE INCREASE**

**Please be advised that the Missouri Universal Service Fund assessment percentage will increase effective May 1, 2007 from the current rate of 0.0018 to 0.0029.**

Since the first discounts were provided to eligible subscribers in June 2005, the Missouri Universal Service Fund has grown to over 63,000 customers receiving discounts each month. Recent growth in this worthwhile program necessitates an increase in the assessment percentage.

A copy of the revised *Assessment Determination and Remittance Form* (MoUSF Form A-031507) is included with this notice. The form is also available on the Missouri Universal Service Fund website (see URL below) in an Adobe Acrobat PDF file that can be populated prior to printing. All you need to do is click in the appropriate blanks on the form, type in your company's information, and print the form.
